Dear President;

Thank you for your letter of December 17, 1979, expressing your concern regarding the Lebret Metis Training Farm. I can assure you that the Government of Saskatchewan is aware of the concern and position of A.M.N.S.I.S. with regard to the Lebret Farm. The government is considering this request but I can not at this time indicate when the final decision will be determined and communicated. However, the matter will not be forgotten by this government and your provincial organization will be advised at the appropriate time.

Sincerely yours,

Walter E. Smishek
